SEGMENT 1 - Playland Pathway Route

Segment #1 – Rye Station to North Street via Theodore Fremd Avenue

SEGMENT 1 – From Rye Train Station To North St.

signed shared roadway w/ sidewalks

Route begins and ends at property line at the southeast edge of the **Rye Metro North Train Station** through the Rye business district, along Theodore Fremd Avenue to North Street. Improvements will include:

- New sidewalk segments and crosswalk striping;
- Interpretive plaques describing the history & ecology of Blind Brook, which is crossed;
- “Share the Roadway” signs & directional signs.

SEGMENT 3 - Playland Parkway

shared-use parkway path

The longest stretch of the original pathway is along Playland Parkway. Improvements will include:

- Repave and widen the existing pathway;
- New Pedestrian Bridge spanning Blind Brook.
- Plantings to soften appearance of pathway elements;
- Guide rails, when necessary;
- Interpretive signage at the crossing over Blind Brook and at its wetlands.

A shopping district, residential community of single family houses, and the entrance to Playland Park all meet at the intersection of Playland Parkway and Forest Avenue (left).

Signage and crosswalk striping will facilitate better pedestrian connections between these areas.

Pedestrians and cyclists will cross Blind Brook off-road over a new footbridge and interpretive signs will describe the waterway and wetlands in the area.

The existing pathway adjacent to Playland Parkway (above) will be repaved and widened to improve pedestrian/cyclist safety.

Playland Amusement Park

entry node

At the entrance to Rye Playland Park, improvements will include:

- Directional & informational signs;
- Connection to the amusement park, boardwalk & area buses;
- Refurbishment of historic bus shelters;
- Interpretive materials showcasing the history of Playland & the region;
- Bicycle racks

Typical off-road pathway section at Rye Playland.

Pavement markings, information kiosks, and bicycle racks will be installed to improve pedestrian access in this area, and colorful interpretive signs will illustrate aspects of the park's history.

The entrance drive to the National Historic Landmark, Playland Park (above), features views of Long Island Sound framed by the park's bathhouse.

Pathway Materials & Amenities

creating a distinctive route

- Railings
- Retaining walls

Native plantings along the pathway create a buffer from traffic and provide a more pleasant experience for both people on the path and the roadway.

Stone retaining walls will be required at an accessible ramp to be installed adjacent to Boston Post Road. Guard rails will be installed as needed.

Site furnishings appropriate to the context will be installed at key points along the route.

Wayfinding and pathway I.D. signs will help create a cohesive and clearly-marked route.

Interpretive Signs

historical highlights

Interpretive signs will be located at significant junctures along the pathway, and will include information about local history, environmental issues and facts about the Playland amusement park and region.

wetlands & waterways

Rye Playland Amusement Park abuts the Long Island Sound – an ecosystem with abundant wildlife, sweeping vistas, and a host of environmental issues. Interpretive signs will inform & educate pathway users about the Sound's natural history as well as key issues of the day.
Below: The shoreline looking out over the Sound.

The pathway route will cross two waterways – Blind Brook and Beaver Swamp Brook. Interpretive signs will bring greater awareness of their presence and provide information about environmental issues such as water quality, flora and fauna.
