

**WHEN YOU'RE WASHING YOUR CAR IN  
THE DRIVEWAY, REMEMBER YOU'RE  
NOT JUST WASHING YOUR CAR  
IN THE DRIVEWAY.**

Soap, dirt and oil can run into the street and storm drain. Then directly into our streams, lakes and reservoirs. And that causes pollution which is unhealthy for everyone, including fish. How to avoid this? Easy. Wash your car on grass or gravel, where water is filtered naturally. Or better yet, take it to a car wash where the water gets treated and recycled.
